JUAREZ, MX (REMOTE)

September 2020 - December 2020

- Guided the web development team on a project from scratch.
- Implemented and managed an agile methodology.
- Designed UI elements and helped the UX side.
- Tasted, coded, reviewed, and delivered software with 100% on-time record.

PERSONAL PROJECTS

All my projects are listed in my web portafolio, but some of my main projects for example:

GARBLER — **WEB APPLICATION**

Web application that allows users to track all garbage trucks in the city in real time and receive notifications.

First place winner in UTCJ Incubator

ZOREN — **WEB 3.0 APPLICATION FOR DIGITAL PAYMENTS**

Web platform built on the Solana blockchain that enables users to streamline money through accessible QR codes.

Finalist and 3rd place winner at Hackathon Solana
